## Promotion of Sustainable Development

Englishting Critoria			Implementation (Note 1)	Deviation
Evaluation Criteria	Y	Ν	Summary Description (Note 2)	and Reason
1.Has the company estab- lished a sustainable de- velopment governance framework and desig- nated personnel to over- see implementation? Has the company's board au- thorized senior manage- ment to implement the plan under board super- vision?	V		The Company's Sustainable Development Best Practice Principles (originally named Corporate Social Responsibility Best Prac- tice Principles) was approved by the board on May 11, 2016. The president of the Company leads our sustainable development implementation team, with support from relevant depart- ments. The team monitors economic, envi- ronmental, social and labor issues arising from company operations and sets rele- vant targets and execution plans based on international sustainable development policies and guidelines. The team briefs the board on sustainable development imple- mentation once a year. In 2023, the briefing took place on Nov. 9. Our sustainable development practices provide maximum flexibility and respon- siveness. These practices include imple- menting corporate governance, developing a sustainable environment, protecting so- cial welfare, providing material disclo- sures, and monitoring domestic and inter- national guidelines. We have commis- sioned a consulting firm to assist with the preparation of a sustainability report. We also started tracking our greenhouse gas emissions before tracking became manda- tory. The board is briefed on implementa- tion quarterly. On March 20, 2023, the board approved the establishment of a sustainabile develop- ment committee to supervise the imple- mentation of the initiatives described	No Deviation

			above. The committee reports directly to the board.	
2. Does the company assess operational risk from en- vironmental, social, and governance issues in ac- cordance with the mate- riality principle, and does it have relevant risk management policies in place? (Note 2)	V		The Company's operational risk disclosure scope covers our performance in sustaina- ble development at our primary operating locations from January to December 2023. The risk assessment scope and boundaries cover our three main businesses – ship- ping, trucking, and container terminals – and our subsidiaries. The board is our high- est risk management and control authority. Our Risk Management Policy was approved by the board on Dec. 8, 2020. Our president oversees our interdepart- mental risk management and control team, which regularly evaluates our risk orienta- tion based on our existing capital structure, business model, corporate strategies and revenue targets. To formulate risk re- sponse strategies, the team follows rele- vant procedures in analyzing the outcomes of specific risks taken. The team reports to the board once a year. Our Audit Committee shares responsibility for managing and controlling both existing and potential risk. The committee has a dedicated team that conducts analysis based on the materiality principle; com- municates with internal and external stake- holders; and evaluates major ESG (environ- mental, social, and corporate governance) issues through data review and analysis. The board was briefed on the implementa- tion of risk management and control measures in occupational safety and	No Deviation

			health, legal affairs and cybersecurity on Nov. 9, 2023.	
3.Environmental Issues (1) Does the company have industry-appro- priate environmental management policies?	V		The Company closely monitors the impact our fleet has on the environment and cli- mate change. Per the International Conven- tion for the Prevention of Pollution from Ships (MARPOL) and European Union reg- ulations, we: continuously track emissions from our fleet in accordance with the International Maritime Organization Fuel Oil Data Collec- tion System and EU/UK Monitoring, Re- porting and Verification System. maintain an inventory of hazardous ma- terials. Our purchase management guide- lines ensure no asbestos-containing mate- rials are used and limit use of heavy metals and other hazardous materials. We are compliant with the EU Ship Recycling Reg- ulation (EU-SRR) and Hong Kong Conven- tion, and are classification society-certi- fied. have installed ballast water treatment systems on our ships in accordance with the International Convention for the Con- trol and Management of Ships' Ballast Wa- ter and Sediments. This convention pre- vents harmful and invasive aquatic organ- isms from spreading between regions. strictly prohibit overboard disposal of plastic waste in accordance with interna- tional marine environment protection laws. We have also installed new water fil- tration systems on ships and switched to	No Deviation

			eco-friendly trash bags. In addition, we ask our crews to minimize consumption of bot- tled water, other plastic products and plas- tic packaging. Since these measures were implemented, average plastic waste vol- ume per ship has fallen dramatically, de- creasing over 50% from 2021 to 2022 and a further 15% from 2022 to 2023.	
(2) What does the company do to improve energy efficiency, and does it use renewable materials to minimize its environmental footprint?	V		The Company has adopted numerous measures to minimize our environmental footprint. On ships: Energy-saving devices have been installed on ships to improve energy efficiency. We use high-end anti-fouling paint on ships and routinely clean shell plating. To reduce plastic waste, we have installed high-end water filtration systems on ships. We also ask suppliers to reduce packaging, encourage crews to reuse con- tainers and padding materials, and incen- tivize waste reduction. In trucking and container terminals: We actively implement energy- and carbon-re- duction measures, including replacing older diesel-powered tractors with energy- efficient, eco-friendly sixth-generation models. Our phase-out of older vehicles will include the introduction of pure elec- tric vehicles and electric stackers to im- prove energy efficiency and reduce our car- bon footprint. In the field and offices: Energy-saving measures we have implemented include a switch to energy-efficient lighting, fewer tube lights, turning off electronics that are	No Deviation

			not in use, thermostat controls during the summer, waste paper recycling, trash sort- ing, waste reduction, and fewer printouts.	
(3) Has the company as- sessed potential pre- sent and future cli- mate change-related risk and opportuni- ties, and has it adopted climate-re- lated countermeas- ures?	V		Shipping: With international and domestic regula- tions becoming stricter by the day, fleet op- erators are under pressure to reduce greenhouse gas emissions and pollution. This means higher risk from higher operat- ing costs. The Company has implemented various changes and upgraded equipment to improve the energy efficiency of our ships, including switching to low-sulfur fuel, optimizing routes with meteorological navigation and installing energy-saving equipment. We will also replace older ves- sels with high-efficiency diesel vessels with energy-saving designs in a timely manner. We closely monitor regulatory changes and proactively implement countermeasures to mitigate operational risk. Trucking and container terminals: The Company is replacing tractors and stackers with new vehicles and equipment that meet new environmental standards.	No Deviation
(4) Did the company track its greenhouse gas emissions, water consumption, and waste volume in the last two years, and	V		The following data covers the Company's consolidated entities including shipping, trucking, warehouse logistics, and commer- cial vehicle subsidiaries: Greenhouse gas emissions:	No Deviation

emissions, water con- sumption and waste generation?			Company's website-ESG report. Field and office water consumption: 2022: 16,769 m <sup>3</sup> 2023: 10,840 m <sup>3</sup> Recyclable waste: Scrap iron and hardware 2022: 19,040 kg 2023: 30,190 kg Used engine oil 2022: 34,990 L 2023: 54,152 L The Company contracts a certified waste disposal company to process general waste. Annual waste volume: 2022: 124 tons 2023: 70 tons Further information on our waste reduc- tion policies and verification status can be found on the Company's annual report - Cli- mate-Related Information of TWSE/TPEx Listed Company.	
<ul> <li>4. Social Issues</li> <li>(1) Does the company have management policies and procedures in accordance with relevant laws, regulations, and international human rights conventions?</li> </ul>	V		To live up to our corporate social responsi- bility and protect the basic human rights of employees and stakeholders, the Company adheres to international human rights cov- enants including the United Nations' Uni- versal Declaration of Human Rights, Guid- ing Principles on Business and Human Rights, Convention on the Rights of Persons with Disabilities, Convention on the Elimi- nation of All Forms of Discrimination	No Deviation

Evaluation Critoria		Deviation		
Evaluation Criteria	Y	N	Summary Description (Note 2)	and Reason
			Against Women, Convention on the Rights of the Child; and the International Labour Organization's Declaration on Fundamen- tal Principles and Rights at Work and Mari- time Labour Convention. We are also compliant with Taiwan's Labor Standards Act, Act of Gender Equality in Employment, Employment Service Act, and other relevant laws. Information on the im- plementation of our Human Rights Policy can be found on our website. We provide a safe, healthy working environment through management principles that promote di- versity and tolerance, fair wage and benefit evaluations, and freedom from discrimina- tion. We also hold quarterly labor-manage- ment meetings and occupational safety and health committee meetings to ensure em- ployee and stakeholder rights are pro- tected. In 2023, we revised and implemented a program to prevent unlawful infringement in the workplace, along with our "Measures of Prevention, Correction, Complaint and Punishment of Sexual Harassment at Work- place." We did not have any cases of dis- crimination, child labor or forced labor in 2023 and we were not fined or penalized for any labor violations. In 2023, employees of the consolidated company attended a to- tal of 2,788 person-hours of training and education in human rights and occupa- tional health and safety.	
(2) Does the company have and has it imple- mented reasonable	V		Employee welfare information can be found on in the "Labor Relations" (5.5) sec- tion of the Company's annual report. The	No Deviation

Evaluation Criteria	Y	N	Summary Description (Note 2)	and Reason
employee welfare measures (including salary, paid time off, and other benefits), and do employee sala- ries reasonably reflect performance and achievements?			Company adjusts wages annually based on operating performance, and performance bonuses are distributed based on annual profit. On average, performance bonuses in 2023 were comparable to 2022. On the workplace diversity and equality front, women make up 50% of our employ- ees and account for 26.4% of senior man- agement (assistant manager and above).	
(3) Does the company provide employees with a safe and healthy work environment? Does it provide regu- lar safety and health training for employ- ees?	V		The Company closely monitors occupa- tional health and safety and received its government-issued "Badge of Accredited Healthy Workplace" on Dec. 22, 2023. In accordance with our occupational health and safety management system, our em- ployees undergo regular disaster preven- tion training. Company properties including offices and plants are inspected and maintained three times a day in the morning, afternoon and evening. This includes regular disinfection, machinery safety inspections, and fire safety testing. Employees are periodically reminded to follow operating procedures to keep themselves safe. The Company provides employees with premium annual physical exams and health consultation services with medical profes- sionals. Company properties are equipped with automated external defibrillators (AED). In 2023, employees of the consolidated company attended a total of 2,788 person- hours of human rights and occupational health and safety training. The consolidated company did not have	No Deviation

			any workplace accidents or injuries in 2023, but we will continue to strengthen workplace safety and operational safety awareness. The consolidated company did not have any fires or related injuries in 2023. We have an autonomous fire prevention team established under the guidance of fire bu- reau instructors. Designated representa- tives from every department undergo regu- lar fire prevention and safety training. We also hold periodic fire drills.			
(4) Does the company of- fer career develop- ment and training programs for employ- ees?	V		The Company's rotational transfer system provides employees with training opportu- nities that develop their professional skills. We encourage employees to enroll in ca- reer development and business English programs. In 2023, 2,253 employee person- times of the consolidated company at- tended 4,642 hours of internal and external professional training, including new em- ployee training and continuing education.	No Deviation		
(5) Is the company com- pliant with laws, regu- lations and interna- tional standards on customer health and safety, privacy, mar- keting preferences and labeling? Does the company have con- sumer protection pol- icies and SOPs for handling consumer	V		The Company's shipping, trucking, and warehouse logistics operations are compli- ant with, respectively, the International Safety Management Code, Regulations for Automobile Transportation Operators, and Regulations Governing the Customs Man- agement of Container Terminals. Customer rights are protected by corporate policies including our Ethical Management Guidelines and Code of Conduct. Stakehold- ers can file grievances via a dedicated con- tact section on our website.	No Deviation		

Englishting Gritaria			Implementation (Note 1)	Deviation
Evaluation Criteria	Y	N	Summary Description (Note 2)	and Reason
and customer com- plaints?		V	As we are not engaged in design, produc- tion, manufacturing or sales, consumer pol- icies are not applicable.	
(6) Does the company have supplier man- agement policies re- quiring supplier com- pliance with environ- mental and occupa- tional safety regula- tions, and labor and human rights stand- ards? How have these policies been imple- mented?	V		Information on the Company's supplier management policies and implementation can be found on our website. We ask our suppliers to complete self-evaluations on product quality, delivery, operations and sustainability once a year. The evaluations help us better understand suppliers' envi- ronmental, social and governance perfor- mance so we can make informed decisions on which suppliers to work with. This is one way we uphold environmental protection and labor rights. In 2023, our procurement and use units conducted a supplier quality system evalu- ation via sampling and asked suppliers to complete either a self-evaluation question- naire or organizational evaluation based on the characteristics of their operations. Sup- pliers were evaluated on quality, price, de- livery time, organizational structure and management, sustainability, etc. Sampling rate in 2023 was 80%, with scores of "ex- cellent" across the board. We therefore did not terminate any supplier contracts in the year.	See Sum- mary De- scription
5.Does the company follow international reporting standards and guidelines in the preparation of its sustainability report and		V	The Company has not yet published a sus- tainability report but we will follow inter- national reporting standards and guide- lines when we do.	See Sum- mary De- scription

- 6.Deviation(s) from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies due to the Company having its own sustainable development best practice principles: None
- 7. Other material information that would help the public better understand the company's implementation of sustainable development practices:

Information on the implementation of the Company's corporate social responsibility and community outreach programs can be found on our website. We are deeply committed to sustainable business practices and have operated with integrity since our inception. By fulfilling our social responsibility, we provide employees with a stable and healthy environment for personal growth while maximizing shareholder value.

We are active in philanthropy, particularly in the areas of youth development and community outreach to the disadvantaged. We hope our programs raise awareness on the importance of community outreach, thereby encouraging more businesses to do their part and contribute to creating a virtuous cycle in society.

Our group is a long-time supporter of Weici Charity Foundation, a social outreach and welfare organization providing assistance to underprivileged families and individuals. The foundation participates in many charitable activities, and provides financial and material aid to social affairs bureaus and households in need, whether the need comes from poverty or ill health. It also supports Taipei Medical University's summer and winter volunteer medical missions on offshore islands, the Taipei City Department of Social Welfare's meal program, and Chinese New Year holiday meals. Additionally, we demonstrate our commitment to social and public welfare through donations to Cheng Hsin General Hospital and education foundations. In 2023, our group's cumulative donations totaled NT\$3.5 million and we provided free meals to an estimated 1,600 people at Taipei City's Zhongzheng Social Welfare Center.

Chinese Maritime Transport Scholarships was established the Chinese Maritime Transport
